CARRIER AIR PURIFIERS

Contaminants like dust, dander, pollen, and other particles can make the air inside your space more polluted than you think – maybe even more polluted than outdoor air.[†] Carrier air purifiers help filter out pollutants, so you can breathe cleaner air. Available in both Wi-Fi[®] and non-Wi-Fi models as well as standard and XL models, a Carrier air purifier can be the perfect fit for a variety of rooms.

Product Features and Benefits

ADVANCED FILTRATION

Our 3-in-1 high-efficiency filter includes a pre-filter for large airborne particles, a high-efficiency (models RMAP-ST, RMAP-XL) or HEPA (models RMAP-SST, RMAP-SXL) filter for fine particles, and a carbon filter for odors and VOCs (volatile organic compounds). In addition, the all-in-one design makes filter replacement easy.

AIR QUALITY MONITORING

Built-in air quality monitor samples incoming air and measures levels of pollution. The easy to read LED screen changes between four colors based on your room's air quality rating.

SET IT AND FORGET IT

The Smart Auto mode lets the air purifier automatically adjust fan speeds based upon the room's air quality to efficiently deliver cleaner air.

SMART HOME INTEGRATION (Wi-Fi models only)

With the user-friendly Carrier Home app, you can easily monitor and control your air purifier, even when you're away from home. The app can alert you when your indoor air quality drops. Plus, connect your purifier with Alexa or Google Assistant for voice control.*

360-DEGREE AIRFLOW

A powerful, 18-speed fan with 360-degree airflow pulls polluted air from below and returns cleaner air back into the room in multiple directions.

LIMITED WARRANTY

All Carrier air purifier models are covered by a one-year limited warranty. See warranty certificate at carrier.com for complete details and restrictions.

Model	Size (in. H x W x D)	Weight (lb.)
RMAP-ST	26.5 x 13.7 x 13.7	23.8
RMAP-XL	31.5 x 13.7 x 13.7	26.6
RMAP-SST	26.5 x 13.7 x 13.7	23.8
RMAP-SXL	31.5 x 13.7 x 13.7	26.6

Peace of Mind

Certifications
